[Tremor Live Arts](#) presents [Tremor 4 <Live.Doc>](#), a multi locational performedia festival that will occur in the artist's present location. The event will be temporally specific rather than specific to a single physical or virtual location. The [Tremor 4 <Live.Doc> webpage](#) will exist first as a window and online portal to participating performances and later as a gallery and archive of the festival. Tremor_4 will be a freestyle and open-source festival that depends on the cooperation of the participating artists to succeed. We invite your collaboration in the production of this shared event!

Work in the following media is accepted-

street art/ urban art- actions, interventions, mapping, fleeting moments...

live art, performance installation, AV, sound art, multimedia...

transmission art, noise, radio, VJ, tele-performance, avatar-based performance, pixel art...

missing link- site-specific, nature, rural, utopia, astronomical precessions, unseen...

INSTRUCTIONS FOR PARTICIPATION

STEP 1: Send artist's name, title, brief synopsis, time/date and location of your performance, and representative image to: tremor4@templeofmessages.com
(optional: web-links, online maps, additional text, images, or sound)

***If your performance will be streamed or transmitted live or take place online or in-world, please send links to those locations.

STEP 2: Send minimum one image or sound file to be included in the Tremor_4 gallery/archive. ***Please try to send documentation within 24 or 36 hrs of your performance.

*****We encourage you to also send** additional images (72dpi), video, and/or sound of performance to be uploaded to Tremor_4 webpage, and/or send links to video-sharing platform or other location where you uploaded documentation. All formats accepted.

The festival will happen November 8-11, 2007.

Questions, comments, and/or suggestions are welcomed and can be addressed to:
